

Hancock County - 2012- FINAL RANKINGS

Regional Ranking	County Ranking	Project Owner	WRIS Project Number	Project Name	Project Description	Estimated Project Cost	Score
Water							
13	1	Hawesville/Lewisport	WX21091056	Hawesville/Lewisport Emergency Interconnection	This project will allow for an interconnection between the Cities of Hawesville & Lewisport on Hwy 60 near Adair Road.	\$ 75,000	45
15	2	Hawesville	WX21091083	Fred Hodges Road Water Tank Rehabilitation	Based on Recent Findings by the Kentucky Division of Water, The City Of Hawesville needs to pursue rehabilitation measures for one of their tanks. The tank, known as the Fred Hodges Road Tank and located on Fred Hodges Road, off of US HWY 60 , requires minor repairs, sand blasting and painting the interior and exterior of the tank, sealing the base of the tank along the foundation, and replacement of waterlines and valves in the tank vicinity.	\$ 70,000	45
24	3	EDCWA	WX21091074	EDCWA Meter Replacement Project (Hancock)	This project will be replacing approximately 1,256 standard meters with radio read meters in an effort for the system to become more efficient and save money as well	\$ 251,200	40
25	4	Hawesville	WX21091082	Hawesville water treatment plant upgrade	This project will upgrade the capacity of the Hawesville water treatment plant to better serve the city's customers as well as make it possible for the city to provide adequate water to the local industries in the area as well as those wanting to locate to Hawesville in the future	\$ 300,000	33
5	5	HCFC	WX21091081	Tickridge Road line upgrade	This project will replace a 3 inch line with a 6 inch water line for approximately 11,000 linear feet and will add approximately 30 new customers for fire protection	\$ 150,000	33
	6	Lewisport	WX21091073	Lewisport Water System Improvements	This project will cover the Re-hab of a storage tank, replacement of 10 valves and the repair/replacement of 10 fire hydrants. Also this project will eliminate 3 deadend lines	\$ 300,000	33
	7	Hawesville	WX21091058	Hawesville Generator Project	This project will allow the city to purchase three generators which will operate the water treatment plant, sewer treatment plant, pump stations, & water wells in the event of a power outage.	\$ 150,000	30
	8	Lewisport	WX21091075	Lewisport/Hawesville Emergency Interconnect	These two cities have areas that when shut down would have the chance to be fed from this interconnection. This is especially important since this interconnection would give both cities the ability to feed there schools which atr times have to close due to lose of water	\$ 35,000	30
	9	Hawesville	WX21091062	Windward Height Waterline Rehab	This project will replace 6" mains with new 6" mains. The current mains experience contanst leaks and breaks due to poor construction.	\$ 400,000	30
	10	EDCWA	WX21091012	East Daviess County/Hancock County Line Extension Tie-ins	This project will extend mains in the following areas to eliminate dead-end lines: 3,000 LF of 3" PVC along Concord Church Road; 1,800 LF of 3" PVC along Virgil Brown Road; 4,100 LF of 3" PVC along Lambert Schoolhouse Road; 2,900 LF of 3" PVC along Middle Knottsville Road; 1,800 LF of 3" PVC along KY HWY 271; 1,700 LF of 3" PVC along Lewisport-Utility Road; 2,500 LF of 3" PVC along Jackson Road; 2,000 LF of 3" PVC along Ed Brown Road; 3,700 LF of 3" PVC along Indian Hill Road; 4,800 LF of 3" PVC along Joe Powers Road; 3,800 LF of 3" PVC along Truman Young Road; 4,200 LF of 4" PVC along Gilbert Morris Road; 1,100 LF of 3" PVC along Fred Morris Road; 2,300 LF of 3" PVC along KY HWY 1700; 10,600 LF of 3" PVC along KY HWY 1700; 2,700 LF of 3" PVC along Goering Road; and 1,500 LF of 3" PVC along Middle Patesville Road. This work will promote circulation of water and eliminate the need for operators to periodically flush the lines, thus reducing operating costs and the cost of wasted water.	\$ 440,000	30
	11	Hancock Co. FC	WX21091076	Hawesville Debt Retirement	Hawesville is carrying \$800,000 in debt that is at a high rate and is the cause of a surcharge on customers bills. This debt retirement would both close a high intrest loan as well as eliminate a surcharge passed on to the customers of the system	\$ 800,000	30
	12	Hancock Co. FC/Hawesville	WX21091087	Antoinette Estates Water Line Extension	This project will extend water lines through the Antoinette Estates subdivision. Currently this subdivision does not have access to drinking water, whihc is stopping the building of houses in this area. This project is in the area of Hwy 60 and KY 1603 and will serve approximately 25 unserved customers with a 4" water line	\$ 500,000	30
	13	HCFC	WX21091080	Hwy 60 East Waterline Extension	This Project will extend waterline down highway 60 approximately two miles to serve approximately 6 unserved customers	\$ 140,000	28
	14	EDCWA	WX21091078	Yakel Road pump rebuild	This project will repair the pump at Yakel road.	\$ 15,000	25
	15	HCFC	WX21091085	Mount Eden Fire Protection Project	This project will build approximately 15 fire hydrants on an existing six inch water main that runs from Goering road to Baker lane along highway 69. The installation of these hydrants will ensure that residents of this community will have access to fire protection, which at present they do not have.	\$ 70,000	15
