

I. Services for the Blind

There are many opportunities for employment and independence to individuals with visual disabilities. The Kentucky Career Center serves individuals who are visually impaired or blind, and assists individuals in obtaining and maintaining employment, economic self-sufficiency and independence with complete integration into society. Services include:

- Information and referral
- Vision related counseling
- Assistive technology
- Rehabilitation training
- Career assessment
- Education assistance
- Medical evaluation and assistance
- Employment placement
- Employer services
- Vocational guidance

The Kentucky Career Center also partners with business and industry, assisting employers in hiring and retaining highly qualified employees.
